ANNAPOLIS INTERCLUB FLEET FROSTBITE SERIES 1 OVERALL SCORES

HIGH POINT SCORING

High Point Scoring Method - 1/29/97

1. **Qualifying Days - 60% of days sailed or 50% + 1 day (e.g. 9 days sailed ---> 5 days to qualify.**
2. **Drop Day - your're worst qualifying day is dropped**
3. **High Point Scoring - 2 points for finishing plus one point for every boat you beat. 1 point in each race for participation on that day (i.e. PMS, DNS, WDR, DNF all get 1 point as long as you sail at least one race for the day).**
4. **Total Daily Points = (# Boats + 1) * # Races**
5. **Individual Points = sum of individual points for each race**
6. **Individual % = Individual Points / Total Daily Points**
7. **Overall Scoring - For boats qualifying for series, drop the day with the lowest daily %, or if a % tie exists, the day with the most total daily points. Calculate new overall % by summing the total individual points for each day and dividing by the sum of the total daily points for each day. Sort finishes by overall %.**
8. **RC Days - People doing RC will recieve sailing credit for that day. Their score will be the average daily % for the best 50% of days actually sailed. Therefore, someone that did RC still must have sailed 50% of the days, but will qualify with 50% + RC day.**

So, participation is rewarded by requiring 60% to qualify and by the establishment of the +1 daily point system. Races days are weighted by the number of races sailed and the nember of boats sailing. Overall scoring is based on winning percentage.

	Day 1		Day 2		Day 5		Day 6		Day 7		Day 8		Day 9		Day 10		Day 11		Day 12				
# Boats =	**7**		**8**		**10**		**13**		**9**		**4**											**8.5**	
# Races =	**3**		**7**		**7**		**7**		**7**		**4**											**35**	
Points =	**24**		**63**		**77**		**98**		**70**		**20**											**352**	

Rank	Name	Day 1	%	Day 2	%	Day 5	%	Day 6	%	Day 7	%	Day 8	%	Day 9	%	Day 10	%	Day 11	%	Day 12	%	Points Total	Points Series	% Average
